Circulating coolant and a thermostat-controlled fan provide efficient cooling effect to prevent engine from overheating especially during heavy traffic and maintain the right engine temperature for optimum engine performance. **Constant Velocity Carburetor** CBR150R features an advanced Constant Velocity Carburetor, previously found only in big capacity bikes, to ensure perfect combustion and further boost engine performance. **Silent Chain** Deliver quieter performance with 2-3 times higher durability compared to conventional silent chain. It also saves on maintenance fee in the long run.
